Cara Menggunakan R-Cluzzy Analisis Possibilistic Fuzzy C-Means (User Manual)

Import Data.

Langkah 1. Klik File -> Open Data atau CTRL + O.

Langkah 2. Pilih Data yang akan di import

Langkah 3. Klik Open.

Analisis PFCM

- Langkah 1. Klik Analyze.
- Langkah 2. Pilih FCM Optimization.
- Langkah 3. Pilih Possibilistic FCM.

Langkah 4. Masukkan variabel ke selected variables (kecuali date key).

- Langkah 5. Tentukkan Parameter
- Langkah 6. Tentukan Indeks Validitas dan Plot yang diinginkan dengan cara dicentang.
- Langkah 7. Jika memilih plot peta, masukkan data key ke box data key dan masukkan shapefile (Optional) .

Langkah 8. Klik Process.

Hasil Output Radar Plot

Hasil Map Plot

Hasil Cluster Plot

Hasil PFCM
